

ZERCA Y LEJOS is a **Non-Governmental Development Organisation** (NGDO). Our field of action has special focus in **Cameroon**. We fight for the recognition of the dignity of every human being above race, culture and social condition. **We centre our efforts on the most disfavoured people** in the country, like oppressed women, children and the pygmy ethnic group.

**We are a bridge among cultures and persons, drawing closer those who live excluded.**

The cornerstone of our NGDO are the volunteers, in Europe as well as in Cameroon, because **we are firmly committed to the active involvement on the ground.**

In line with the Millennium Goals we base our work in **4 plans of action:**

- **Health:** We pursue to improve the health status of the population, especially for the underprivileged groups.
- **Education:** We fight to secure an affordable, accessible and good quality school for all the children.
- **Socio-Economic Development:** We promote growth and economic development within a strong social framework, entrepreneurship, cooperativism, technical education and cultural activities.
- **Basic Habitability and Infrastructures:** We provide the population with the minimum infrastructures that enable their development. We start by building safe drinking water sources.

 97% of every euro is spent directly in projects

Through this four pillars, our goal is promoting a change that allows **the integral development and a decent quality of life** for Cameroon's population. Our LEJOS.

Not forgetting the work done day after day by **hundreds of volunteers** in Spain, supporting and managing our projects, taking tasks for communication, fundraising, raising awareness, etc. Our ZERCA.

Being clear: **transparency in management is an absolute priority**

- Transparency in economic matters. We are recognized by the ministry of interior as an Association of public interest.
- Transparency on the development of our projects. We want you to know us, we want you to participate, and we want you to come!
- Transparency in the election of the positions voted by the Assembly.

Every year new volunteers join us In our work. **99% of the people who form this NGDO are volunteers.**

Moreover, we have more than **500 private partners** who are the basis of our founding, alongside with one-time donors and material donations.

**There are many ways of collaborating  
Which is yours?**
